

## Infor PLM Innovator – powered by aras

The screenshot displays the Infor PLM Innovator web application interface. At the top, it shows the application name 'Infor PLM Innovator powered by aras' and the local time 'Wednesday, September 03, 2014 8:13 AM'. The main interface is divided into several sections:

- Contents:** A navigation tree on the left with categories like Administration, Change Management, Design, and Documents.
- Properties:** A 'CAD Document' section showing details for a selected document, including 'Created By: Innovator Admin', 'Created On: 3/16/2012', and 'State: Released'. A small image of a circuit board is shown below the text.
- Table:** A table listing CAD documents with columns for Document Number, Revision, Name, Type, State, Native File, Viewable File, and Authoring Tool. The table contains several rows of data, including 'Thing-O-Matic Assembly', 'Cartridge Heater', 'Drive Gear', and 'RUBBER\_CORD'.
- SolidWorks:** A 3D CAD model interface showing a mechanical assembly with a tree view on the left listing components like 'Sensors', 'Annotations', and 'Mates'.
- NX 8.5:** A 3D CAD model interface showing a different mechanical assembly with a tree view on the left listing components like 'Sections', 'P10216', and 'P10214'.
