

**PRESS RELEASE**

## **AKKODiS Consulting Ltd. Launches AI-Driven Hyperautomation-Enabled RPA Migration Service**

**January 27, 2025** - AKKODiS Consulting Ltd. (Headquarters: Minato-ku, Tokyo; President: Kenichiro Kawasaki; hereinafter “AKKODiS”), the Japanese subsidiary of Akkodis, which leads the smart industry with digital engineering at its core in 30 countries worldwide, supports companies in improving productivity and achieving AI transformation through the power of on-site innovation and digital technology. AKKODiS has launched AI-driven Hyperautomation services on Microsoft AppSource, an online cloud marketplace providing tailored line-of-business solutions. The services being launched include "RPA Migration Assessment", "RPA Migration PoC", and "RPA Migration End-to-end Service"

<b>Services Launched on Microsoft AppSource</b>	
「RPA Migration Assessment」	<a href="#">Assessment of RPA Migration to Power Automate with intelligence automation – Microsoft AppSource</a>
「RPA Migration PoC」	<a href="#">PoC for RPA Migration to Power Automate with Intelligent Automation – Microsoft AppSource</a>
「RPA Migration End-to-end Service」	<a href="#">End-to-End RPA Migration to Power Automate with Intelligent Automation – Microsoft AppSource</a>

While Japanese companies face various challenges in promoting DX (Digital Transformation), the AI-driven Hyperautomation-enabled RPA migration service launched by AKKODiS assesses a company's legacy systems and supports through migrations and modernizations. Furthermore, by leveraging its Global Delivery Center in India in addition to its presence in Japan, AKKODiS ensures a reliable, speedy, and cost-effective RPA migration for large scale migrations with experienced engineers from both countries.

Kenji Tanaka, AKKODiS Executive Officer and General Manager of the Cloud and AI Solutions Headquarters, who is spearheading this initiative, offered the following comments on the launch: "We are thrilled to be the first in Japan to launch an RPA migration service on Microsoft AppSource, specifically designed for Hyperautomation. At AKKODiS, we've established ourselves as pioneers as Microsoft partners for Hyperautomation in Japan, steadily building a track record of successful RPA migrations and accumulating cloud expertise as Microsoft partner for Hyperautomation. Moving forward, we will continue to support even more companies in their DX and Hyperautomation journeys through RPA migration. With this release, we look forward to assisting clients not only in Japan but also across various industries worldwide. We are committed to helping businesses achieve greater operational efficiency, productivity gains, and synergy between cloud and Generative AI by connecting RPA migration to modernization efforts leveraging the Microsoft Power Platform. Ultimately, our goal is to contribute to the growth of businesses through these transformative initiatives."

Giovanni Mezgec, Vice President, Modern Work + Business Applications Field & Partner Marketing, Microsoft Corp. said, "We welcome AKKODiS RPA Migration solutions to AppSource, where global customers can find thousands of line-of-business partner solutions that work with the Microsoft products they already use. Thanks to trusted partners like AKKODiS, AppSource is part of a cloud marketplace landscape offering flexibility and economic value while transacting tens of billions of dollars a year in revenues."

AKKODiS aims to support innovation in collaboration with companies, organizations, and local communities under the vision of “Transforming Japanese companies into global enterprises through on-site transformation.”
