

FOR IMMEDIATE RELEASE

Medical Corporation HELENE, Omotesando Helene Clinic Announces the Appointment of Serge Telle as Senior Advisor for International Relations & Scientific Diplomacy

Effective April 1, 2026, the appointment will support stronger international collaboration and greater global dialogue in regenerative medicine and advanced medical fields, including ATMPs

Tokyo, Japan — April 9, 2026 — Medical Corporation HELENE, Omotesando Helene Clinic, announces that **Mr. Serge Telle** has been appointed **Senior Advisor for International Relations & Scientific Diplomacy**, effective April 1, 2026.

H.E. Mr. Serge Telle

Omotesando Helene Clinic is engaged in medical care, research and development, medical collaboration, and international dialogue in advanced medical fields, including **regenerative medicine utilizing autologous mesenchymal stromal cells (MSCs), commonly known as mesenchymal stem cells, and ATMPs (Advanced Therapy Medicinal Products)**. In recent years, the advanced medical sector has required not only scientific and clinical excellence, but also a deeper understanding of regulatory systems across jurisdictions, sustained engagement with relevant institutions, and the development of long-term relationships of trust.

In light of this environment, the Clinic believes that the participation of an advisor with distinguished expertise in both international relations and scientific diplomacy will play an important role in strengthening its international engagement and supporting reliable, sustainable initiatives in advanced medicine.

Mr. Telle has held a number of senior diplomatic positions throughout his career, including serving as Diplomatic Adviser to French Prime Minister Lionel Jospin, Ambassador of France to Monaco, and Ambassador of France for Euro-Mediterranean Affairs / the Union for the Mediterranean. From 2016 to 2020, he served as **Minister of State of Monaco**, appointed by **H.S.H. Prince Albert II**, a position equivalent to the head of government in Monaco. His extensive diplomatic background and international perspective are expected to make a meaningful contribution to the Clinic's efforts to deepen cooperation with overseas medical, research, and business stakeholders, strengthen relationships across jurisdictions, and promote international dialogue in advanced medicine.

In his new role, Mr. Telle will provide strategic advice on the Clinic's international relations and support the development of international partnerships and long-term global engagement from the perspective of scientific diplomacy.

Omotosando Helene Clinic remains committed to contributing to society through the advancement of medicine and science across borders, and to creating new value in regenerative medicine and other advanced medical fields, including ATMPs, through constructive international collaboration.

Comment from Omotosando Helene Clinic

"We are deeply honored to welcome Mr. Serge Telle as Senior Advisor for International Relations & Scientific Diplomacy. Through his extensive diplomatic experience and international insight, we look forward to further strengthening our global engagement and advancing greater social value in regenerative medicine and other advanced medical fields, including ATMPs."
