

**EASYBOOKZ.COM**

Elevating efficiency. Empowering growth.

# **Gujarat**

## **A Pioneering State**

Presented by Himanshu Godara,  
Founder - EasyBookz.com

## Speaker's Profile

**Himanshu Godara**  
Founder, EasyBookz.com  
IIM Indore | IIT Roorkee

**EASYBOOKZ.COM**

Elevating efficiency. Empowering growth.

Himanshu is a **founder of EasyBookz.com**, a new-age accounting and consulting startup to support forward-thinking companies by granting them access to advanced capabilities typically available to organizations with large finance teams and resources.

With more than **15 years of expertise in cross-border advisory**, he brings a wealth of experience right from the identification of high-value business opportunities, preparing and executing a strategic and financial roadmap to the commencement of actual business operation. Throughout his career, he has played **integral roles in numerous M&A and investment transactions**, offering valuable support in areas such as commercial and financial due diligence, go-to-market strategy, growth strategy formulation, and greenfield projects. Over the years, he has **built a strong network of 100+ corporates, foreign trade bodies**, industry associations, banks, law firms and consulting firms in **India, Japan and Singapore**.

Currently, he also holds the position of a **non-executive director at the Indian subsidiary of SATORI Electric, a Japanese company**. In this role, he offers strategic and financial insights to enhance the operations of the Indian entity.

**Education:** He holds an MBA from **Indian Institute of Management (IIM)**, Indore and B.Tech in Civil Engineering from **Indian Institute of Technology (IIT)**, Roorkee.

**Business skills:** India entry strategy, go-to-market, financial planning, commercial and financial diligence, market research, strategic alliances and business development, client relationship management, negotiation, key account management, location planning, feasibility study.

# How We Can Support

## Market Assessment

Interact with key stakeholders of the value chain – customers, competitors, suppliers, distributors, importers, government agencies to assess the current market scenario and to identify high-value opportunities in alignment with the organization's vision and mission.

## Competition and Customer Analysis

Conduct in-depth customer and competition assessment to understand existing gaps and expectations in terms of price, quality, service level and other parameters.

## Tax and Regulatory Assessment

- Capital Structuring
- Indirect and Direct Tax Advisory
- Jurisdiction Analysis
- Transfer Pricing

## Recommendation on India Entry Options

- Greenfield Set-up
- Acquisition
- Alliances / Joint Venture
- Liaison office, branch office
- Indirect presence through distributorship, licensing, franchising, etc.

## Implementation Support

- Company formation
- Accounting and bookkeeping
- Statutory compliances
- Greenfield Setup Support
- Transaction support service

# GUJARAT

## LOOKING FOR ANSWERS?

- Is it the right time to invest in India?
- What are the potential business opportunities?
- Will our business model work?
- What is a best way to enter India?
- How India will complement our global strategy?

# Key parameters to evaluate best location to start business in India

## Cost Parameters

Talent Acquisition Cost

Utility Cost

Office Rental

Other Indirect Costs

## Sustainability Parameters

Talent Availability and Quality

Infrastructure Scalability

Maturity of IT related ecosystem

Presence of other IT companies

FDI Trends and Major Investments

Social Infrastructure

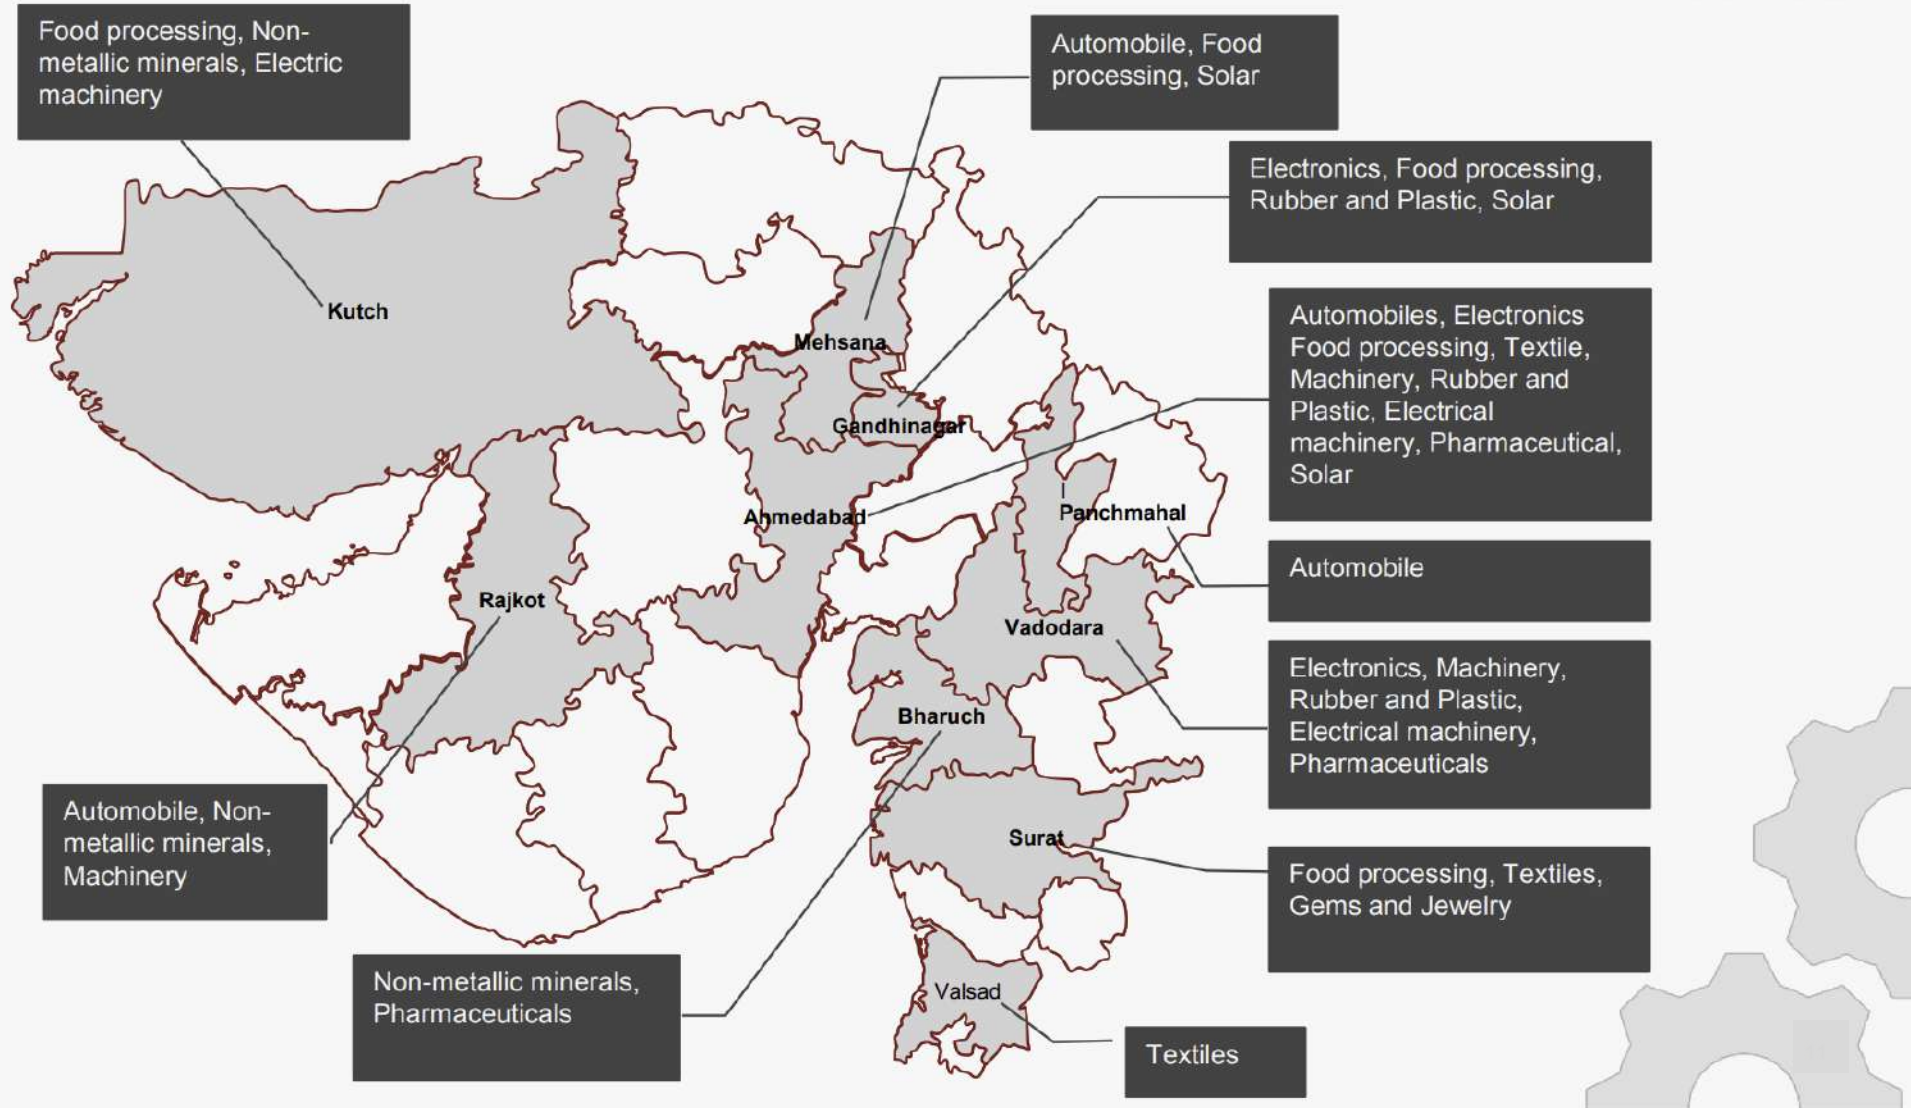

# Gujarat – A Pioneering State

Located on the western coast of India, Gujarat is one of the most sought out investment destinations in the country. The extremely business friendly policies of the state have paved the way for other states to follow Gujarat's lead. The state has direct international flight connectivity to cities across Europe, Middle East, East Asia and America.

Gujarat also has a coastline of 1600 km with 42 ports connecting to major sea-based trade routes and trade centers such as Middle East, West Europe, Asia and upcoming destinations on the African Continent. Gujarat acts as a gateway to landlocked states of India connecting to them by road, rail and air – thereby providing a boost to trading opportunities.

# Gujarat: Strong manufacturing and industrial ecosystem

# Presence of major domestic and multinational companies

# Mega Projects driving growth

## DMIC & DFC

38% of the USD 100 billion Dedicated Freight corridor between Delhi and Mumbai passes through Gujarat

## GIFT City

India's greenfield financial hub with world class infrastructure for offshore & international transactions

## High Speed Rail

India's first high speed rail project between two mega cities – Ahmedabad & Mumbai

## DREAM City

Construction of Diamond Research and Mercantile City (DREAM) city is completed

## Dholera SIR

- India's largest greenfield spread over 900 sq. km
- 500 acres of land earmarked for defence aviation hub

## Mandal Becharji SIR

Home to some of the world's largest automobile & auto component companies. TP schemes developed.

## Greenfield ports

New ports at Nargol, Chhara, Jafrabad & Bhavnagar LNG Terminal

## Unconventional Energy

30,000 MW hybrid wind-solar park in Kutch

DMIC – Delhi Mumbai Industrial Corridor, DFC – Dedicated Freight Corridor, GIFT – Gujarat International Finance & Tec City, SIR – Special Investment Region

# Gujarat: Leader in Green Transition

 **Dedicated Climate Change Department** under the Govt of Gujarat; first at the sub-national level in Asia

 **World's largest hybrid solar-wind park** under development across 72,000 hectares

 **36 GW** of offshore wind energy potential off the coast of Gujarat

 Specific **sectoral policy for Green Hydrogen** manufacturing; land earmarked as a **“Renewable Energy park”**

 **Gujarat International Finance Tec-City (GIFT City)**, an international financial services center with the potential to be used as a **vehicle for green financing**

# Gujarat Industrial Policy 2022

 MSME	Category of Taluka	Fixed Capital Incentive (Max)	Interest Subsidy (Max)
	Category 1	25% on term loan of INR 35L	7% on INR 35L for 7 yrs
	Category 2	20% on term loan of INR 30L	6% on INR 30L for 6 yrs
	Category 3	10% on term loan of INR 10L	5% on INR 25L for 5 yrs

 Large Scale Industries	Category of Taluka	Interest Subsidy (Max)	Net SGST Reimbursement
	Category 1	7% on term loan for 10 yrs (Max: 1% eFCI p.a)	100% of net SGST for 10 yrs (Max: 7.5% of eFCI p.a)
	Category 2	7% on term loan for 8 yrs (Max: 1% eFCI p.a)	90% of net SGST for 10 yrs (Max: 6.5% of eFCI p.a)
	Category 3	7% on term loan for 6 yrs (Max: 1% eFCI p.a)	80% of net SGST for 10 yrs (Max: 5% of eFCI p.a)

 Thrust Industries	Category of Taluka	Interest Subsidy (Max)	Net SGST Reimbursement
	Category 1	7% on term loan for 10 yrs (Max: 1.2% eFCI p.a)	100% of net SGST for 10 yrs (Max: 8% of eFCI p.a)
	Category 2	7% on term loan for 8 yrs (Max: 1% eFCI p.a)	90% of net SGST for 10 yrs (Max: 7% of eFCI p.a)
	Category 3	7% on term loan for 6 yrs (Max: 1% eFCI p.a)	80% of net SGST for 10 yrs (Max: 5.5% of eFCI p.a)

 Mega Industry	Category of Taluka	Interest Subsidy (Max)	Net SGST Reimbursement
	ALL	7% on term loan for 10 yrs (Max: 1.2% eFCI p.a)	100% of net SGST for 20 yrs (Max: 0.9% of eFCI p.a)

## Policy Highlights for MSME

### a) EPF Reimbursement

100% of employer's statutory contribution under EPF (ceiling of 12% of the employee's basic salary or INR 1800, whichever is lower) – for a period of 10 years

### b) 1% Additional Interest Subsidy:

Available to differently-abled entrepreneurs, women entrepreneurs, registered startups in manufacturing and young entrepreneurs below the age of 35 years on the date of sanction of term loan

## Policy Highlights for Large, Thrust & Mega Industries

### a) EPF Reimbursement

100% of employer's statutory contribution under EPF (ceiling of 12% of the employee's basic salary or INR 1800, whichever is lower) – for a period of 10 years

### b) Stamp Duty Registration

Eligible industrial units shall be eligible to claim 100% reimbursement of stamp duty and registration charges

### c) Electricity Duty Exemption

100% exemption from electricity duty for first 5 years post commercial production

# Gujarat Thrust Sectors – Driven by Policies

## Green Energy Ecosystem

- Green Hydrogen/ Green Ammonia
- Electrolyser
- Renewable energy equipment
- Battery Storage
- Fuel Cell

## Capital Equipment

- Electrical Machinery
- Industrial Machinery
- Telecom related manufacturing
- Space related manufacturing

## Mobility

- Aviation related manufacturing
- Electric Vehicles
- Auto & Auto Components
- Space related manufacturing

## Metals & Minerals

- Metals
- Mineral Processing
- Ceramics

## Sustainability

- Municipal solid/ liquid waste recycling equipment manufacturing

## Gems & Jewellery

- Gems & Jewellery including Lab Grown Diamond

## Agro Processing

- Agro & Food Processing

## Textile & Apparels

- Technical Textile
- Textile, Apparel & Garments

## Healthcare

- Pharmaceuticals and / or APIs
- Medical devices

# Dholera, the next big investment and industrial destination (1/2)

Special Investment Regions (SIR) of Dholera is a Greenfield Industrial City, planned developed and managed by an SPV named Dholera Industrial City Development Limited (DICDL). The greenfield city is planned to be developed over 920 sq.km. with access to other proximate major cities like Ahmedabad, Rajkot, Baroda. The city is envisioned as a self sustaining integrated ecosystem of urban and industrial economy. Being located in Gujarat, Dholera SIR has inherent advantages for industrial development.

DSIR is a part of the Delhi-Mumbai Industrial Corridor (DMIC) which is a mega infrastructure project of USD 90 billion (INR 4,23,000 crore) covering a distance of over 1500km between the political capital and the business capital of India (Delhi and Mumbai).

# Dholera, the next big investment and industrial destination (1/2)

**1<sup>st</sup> Greenfield Industrial Smart City in India**  
Certified as **Platinum Rated Green City** by Indian Green Building Council

### State of the Art Infrastructure

Rail & Road Connectivity Treated & recycled water, power, CETP, STP etc

### Blanket Environment Clearance

Companies to receive blanket environment clearance from DICDL

### Plug & Play Facilities

Companies to receive blanket environment clearance from DICD

### Smart & Sustainable Infrastructure

Companies to receive benefits of Smart Infrastructure and sustainable energy

### Lowest Power Tariff

Local DISCOM to provide provide to companies with the lowest tariff

# Electric vehicle

## EV SALES REGISTERED IN INDIA OVER 5 YEARS

**3 million EVs  
by FY25**  
A dream within  
India's reach

Source: Society of Manufacturers of Electric Vehicles

EV sales have grown at an annualized average rate of 55%. Sales in India are driven by the E2W and E3W segments. Between April 2022 and December 2022, E2Ws and E3Ws represented 62% and 34% of all EVs sales, while E4Ws comprised less than 4% of sales. E-bus sales stood at 0.19%, with 1,617 buses sold in the period of 9 months

# INDIAN EV POLICY HIGHLIGHTS

## 49%

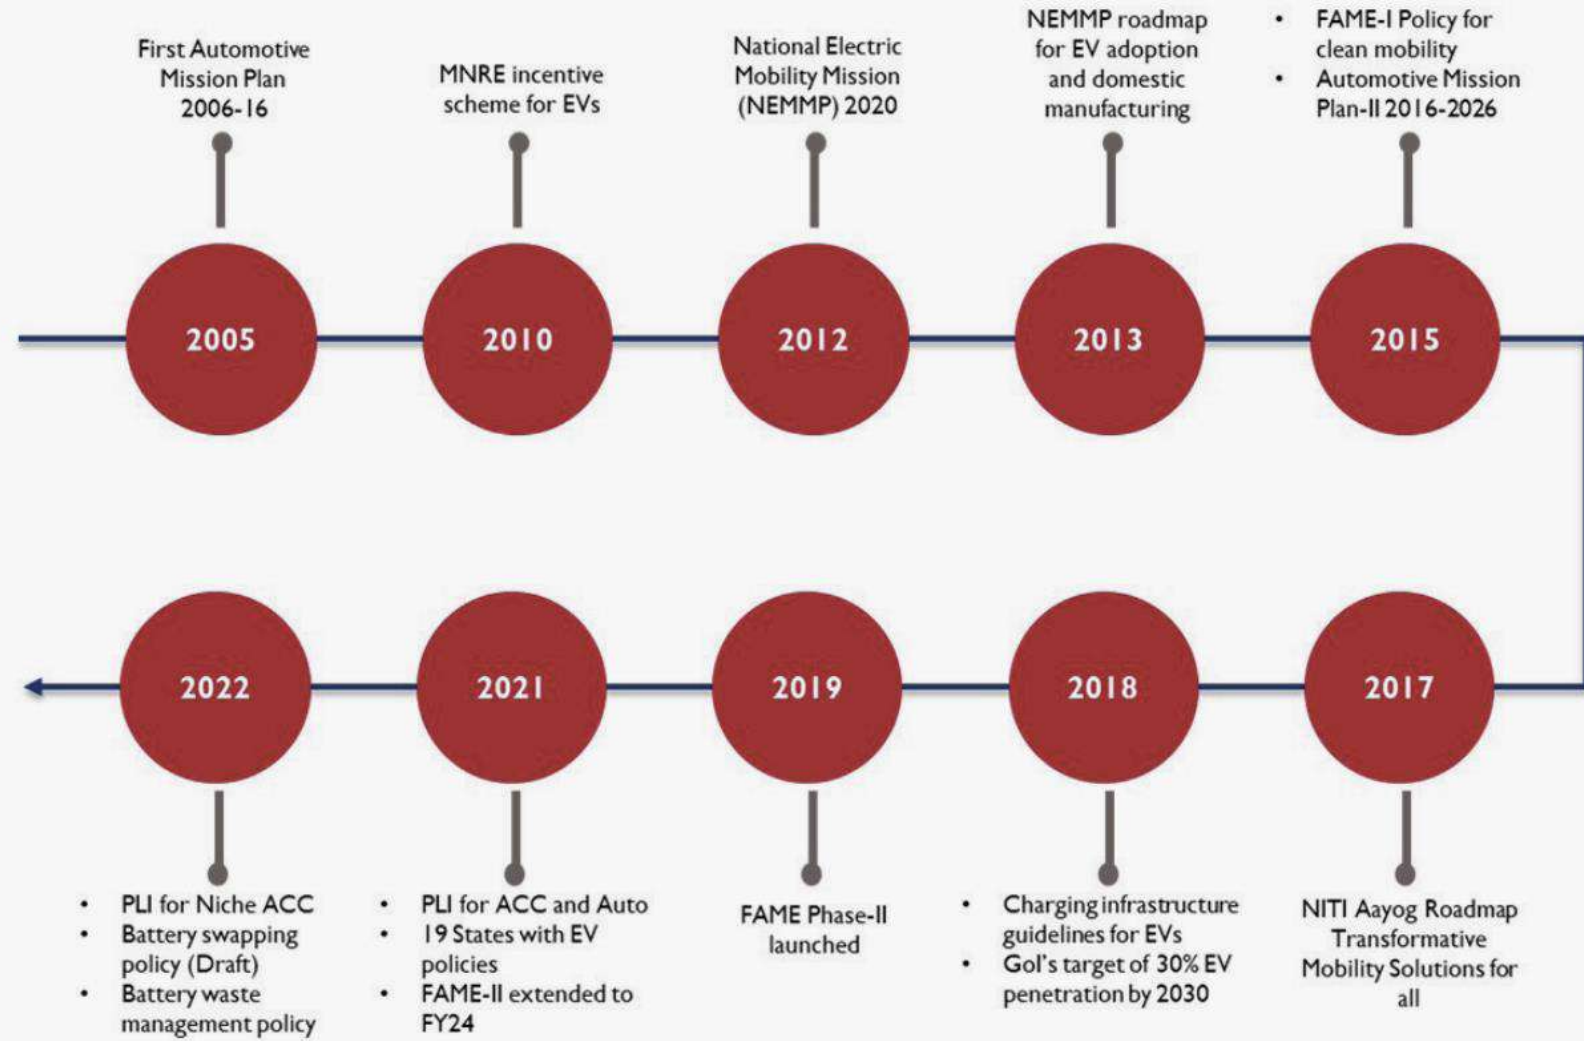

Expected annual growth rate of the **Indian EV market** till 2030

## \$1.4B+

In **policy incentives** from the Government of India

## \$200B+

**Investment opportunity for India** in EVs, charging infrastructure, and batteries till 2030

# Production Linked Incentives (PLIs) for Advance Chemistry Cells (ACC)

The government has allocated approximately **\$2.5 billion** to the incentive scheme which aims to build local manufacturing capacity of **50 GWh of ACC and 5 GWh of niche ACC capacity** (planned). The scheme aims to result in economies of scale and increased exports, assisting major domestic and foreign manufacturers **in establishing competitive ACC battery manufacturing in India.**

- \$5.5 billion of direct investment into ACC battery manufacturing projects
- Net savings of up to \$30.5 billion on account of import bill reduction during the period of the scheme
- Incentive to encourage industry to promote fresh investments in indigenous supply chain and deep localization of the battery manufacturing industry

*Source: Ministry of Heavy Industries*

The Niti Aayog predicts that India's EV battery recycling market is set to expand to **128 GWh by 2030** — from a mere 2 GWh in 2023.

## Battery Waste Management Rules

To ensure environmentally appropriate treatment of battery waste, the Ministry of Environment, Forest, and Climate Change announced the Battery Waste Management Rules in 2022.

- Specifically outlines li-ion chemistry batteries used in EVs for recycling.
- Mandates EPR for Indian battery manufacturers with penalties for non-compliance.
- Is likely to offer incentives for entrepreneurs in setting up recycling facilities.
- Outlines a minimum of 90% materials recovery by 2027.
- Mandates the use of 5% recycled materials in new batteries by 2027, which will rise to 20% by 2030-31.

**Foxconn  
aims to make  
India its  
third EV hub,  
eyes 5%  
global  
market share  
by 2025**

# Gujarat: Electric Vehicle Policy 2021

## Objective

- To transition the state's transportation sector towards electric mobility.
- To make Gujarat a manufacturing hub for electric vehicles and ancillary equipment.
- To encourage start-ups and investment in the field of electric mobility and associated support sectors such as data analytics and information technology.
- To improve the quality of the environment by reducing air pollution.

# EV battery recycling in India – Opportunities and challenges

# Solar

India is the world's third largest producer of renewable energy, with **40% of its installed electricity capacity** coming from non-fossil fuel sources

China's share in all the manufacturing stages of solar panels (such as polysilicon, ingots, wafers, cells and modules) exceeds 60%-70%. However, **India is challenging China's dominance in the Solar manufacturing market with the increased manufacturing capacity in the coming years.**

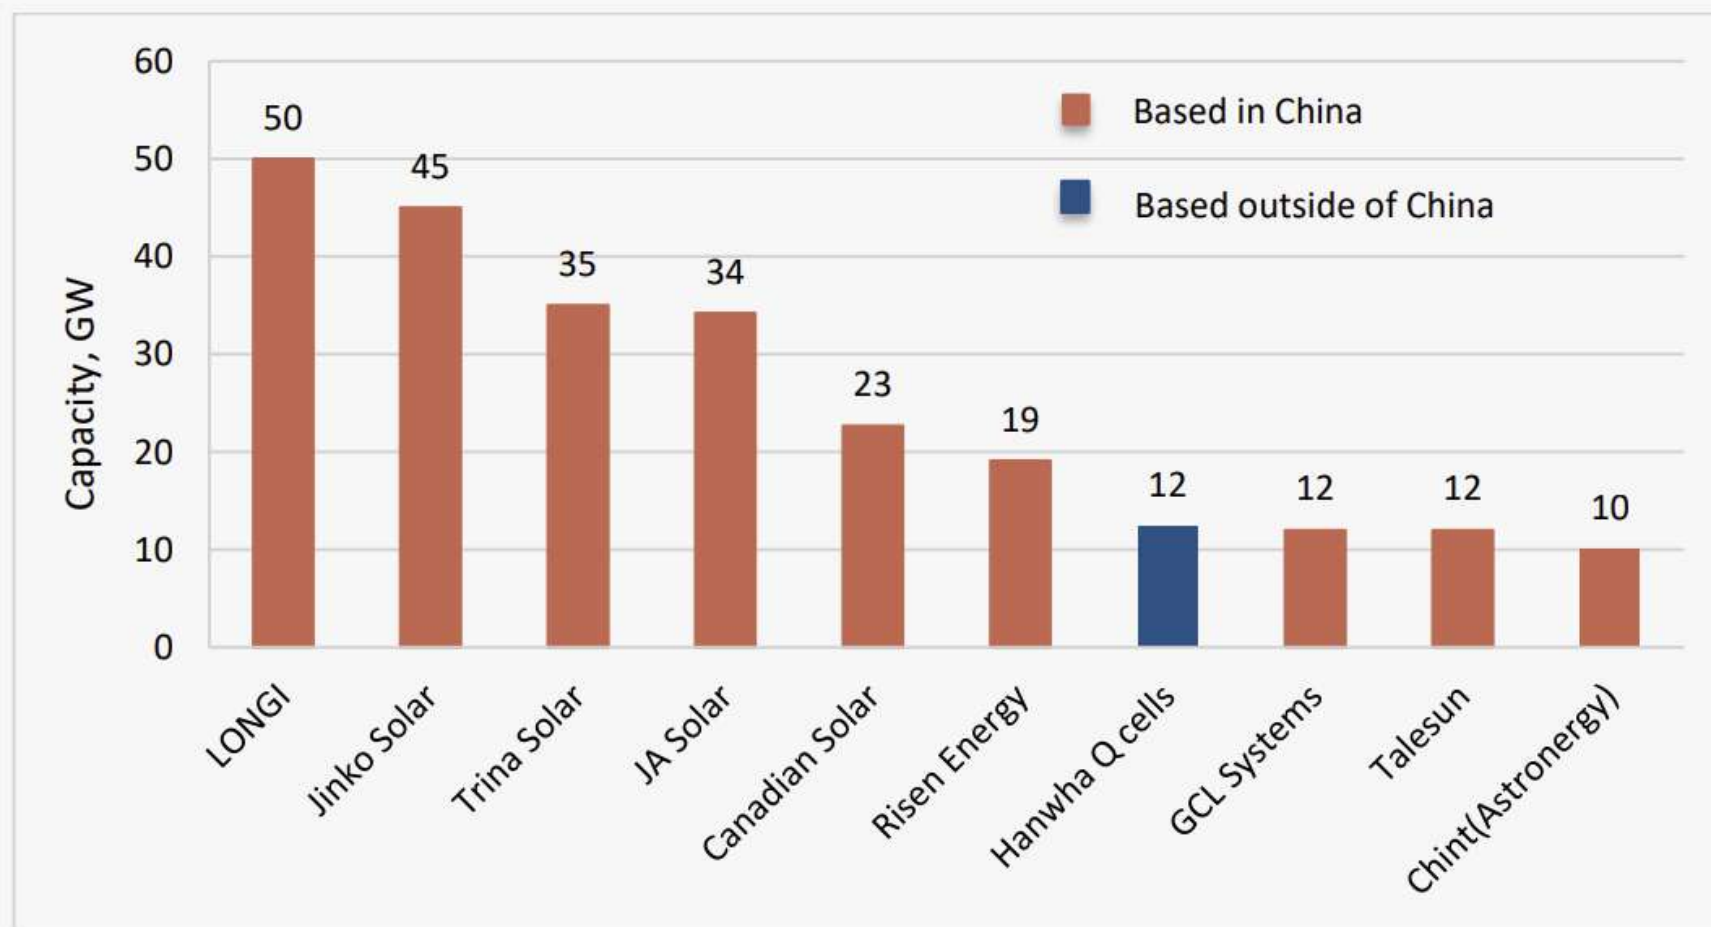

# Global Annual Module and Cell Production Capacity (as of November 2021)
