

# EU Business Hub @ SEMICON JAPAN 2025

## Get ready to partner with Europe's Semiconductor Innovators at SEMICON Japan 2025

The EU Business Hub connects Japanese companies with Europe's top innovators at Semicon Japan 2025, held from 17 to 19 December at Tokyo Big Sight. The EU Pavilion will feature around 50 European SMEs and start-ups, selected for their expertise in semiconductor and electronics technology. Before the exhibition, a joint matching event with JETRO and the European Japan Centre (EJC) takes place at the Global Innovation Hub "SAKURA DEEPTech SHIBUYA" on 16 December, offering exclusive networking opportunities. Don't miss out—register for matchmaking by scanning the QR code in matchmaking section.

SEMICON Japan 2024 welcomed 103 000 visitors and leaders from the semiconductor sector. In 2025, the EU Business Hub returns to host the EU Pavilion, featuring 50 European SMEs involved in the semiconductor sector, including components, data, robotics, digital technologies, software, etc. This event offers Japanese companies a unique chance to partner with Europe's top innovators and explore new business opportunities.

Building on the success of SEMICON Japan 2024, this year's mission will strengthen collaboration between Japanese and European SMEs and start-ups. Tailored services, interpreters, and coaching will ensure maximum exposure for participants' cutting-edge technologies.

Don't miss the chance to connect with Europe's leading semiconductor solutions. Visit the EU Pavilion at SEMICON Japan 2025 to discover innovations shaping the industry's future.

## SCHEDULE

- |                          |                                                             |
