

## **TEKNOWMICS WINS BRONZE STEVIE® AWARD IN 2012 INTERNATIONAL BUSINESS AWARDS<sup>SM</sup>**

TOKYO, JAPAN – 15 August 2012 – Teknowmics was named the winner of a Bronze Stevie® Award in the ‘Company of the Year – Software’ category in The 9th Annual International Business Awards today.

The International Business Awards are the world’s premier business awards program. All individuals and organizations worldwide are eligible to submit nominations – public and private, for-profit and non-profit, large and small. The 2012 IBAs received entries from more than 50 nations and territories.

Nicknamed the Stevies for the Greek word for “crowned,” the awards will be presented to winners at a gala awards banquet at the Ritz-Carlton Hotel in Seoul, South Korea on 15 October.

More than 3,200 nominations from organizations of all sizes and in virtually every industry were submitted this year for consideration in a wide range of categories, including Most Innovative Company of the Year, Management Team of the Year, Best New Product or Service of the Year, Corporate Social Responsibility Program of the Year, and Executive of the Year, among others. Teknowmics won in the Company of the Year category for Computer Software.

Stevie Award winners were selected by more than 300 executives worldwide who participated in the judging process this year.

“Entries to the IBAs grew substantially this year,” said Michael Gallagher, president and founder of the Stevie Awards. “Despite slow economic conditions in much of the world, the quality of nominations was outstanding, demonstrating that there are many companies that are innovating and growing regardless. We’re looking forward to celebrating this year’s Gold, Silver and Bronze Stevie winners at our gala event in Seoul on 15 October.”

Details about The International Business Awards and the lists of Stevie Award winners are available at [www.StevieAwards.com/IBA](http://www.StevieAwards.com/IBA).

### **About TEKNOWMICS**

Teknowmics, established in 2010, is a software product company headquartered in Tokyo, Japan. SmartDocs is a cloud-based enterprise content management platform that revolutionizes the way organizations capture, manage and share knowledge across the enterprise. Leveraging on advanced cloud computing technology, SmartDocs is a fully integrated and smart solution that helps enterprises to organize and archive their document/content repositories and collaborate across teams with no fear of data theft. SmartDocs is designed with advanced security features that help in creating a secure, shared online workspace for user groups, employees and external stakeholders in an organization allowing them to collaborate for improved operational efficiency and business benefit. SmartDocs is available on mobile platforms including iPhone, iPad and Android tablets/phones, thus significantly enhancing the productivity of the organization.

SmartDocs is available in 9 languages - Japanese, Chinese (simplified and traditional), English, German, Russian, Korean, French, and Spanish - and also supports local file formats (such as Ichitaro in Japan, Hangul in Korea), thus making it very useful for companies with global operations
