

## Financie, Inc. and Coincheck, Inc. to Launch IEO for “Financie Token (FNCT)” on February 21

~ Whitepaper to be released today and purchase application to begin on February 21 at Coincheck! ~

Financie, Inc. (Headquartered in Shibuya-ku, Tokyo, CEO: Hironao Kunimitsu, hereinafter referred to as "Financie") announces that Financie Token (FNCT) will be available for purchase on February 21, 2023 at Coincheck IEO provided by Coincheck, Inc. (Headquartered in Shibuya-ku, Tokyo, Representative Director: Satoshi Hasuo). In addition, a whitepaper on Financie Token (FNCT) was released today.

Financie Token (FNCT) Whitepaper: <https://fnct.xyz/whitepaper/en>

Financie is the only web3 platform in Japan that provides consecutive support for the formation and expansion of the token ecosystem, including the blockchain-based token-issuing crowdfunding platform “FiNANCiE”, NFT planning and issuance support, and IEO support. In the future, by combining the Financie Token (FNCT) and community tokens (\*) issued by each community on FiNANCiE, we aim to develop the creator economy that has been closed within the FiNANCiE service, into a global ecosystem.

\*Community tokens are tokens that can be used within FiNANCiE. Not crypto assets.

### ■ About IEO (Initial Exchange Offering)

IEO stands for "Initial Exchange Offering", and is a mechanism whereby crypto assets issued by companies, projects, etc. are vetted by crypto asset exchange before being sold. In addition to being able to raise funds, tokens make it easy to form and strengthen communities that utilize crypto assets.

## ■ About Financie Token (FNCT)

Financie Token (FNCT) is a crypto asset issued on the Ethereum network. It serves as a platform token that effectively connects community tokens issued and used by FiNANCiE, a blockchain-based token-issuing crowdfunding service provided by Financie, to increase the value of community tokens for a longer term. The service will be used to effectively connect community tokens issued and used at "FiNANCiE". Specific examples of how the Financie Token (FNCT) will be used to include rewarding FiNANCiE users and incentivizing the continued growth of good communities on FiNANCiE. FNCT also has the utility to participate in the governance of the entire FiNANCiE ecosystem, contributing to the realization of "user-centered management".
