ARTAQUARIUM Ginza Project

# ART AQUARIUM MUSEUM GINZA(TOKYO)

## “Goldfish Museum of Tradition and Art”

### 【Winter limited illumination production】

From November 29th 2022, there will be illuminations and special Christmas decorations. You can enjoy watching the goldfish in the Art Aquarium in the space where the illumination shines. Also, the museum will change to Japanese New Year decorations from the end of December to the beginning of January.

### 【What to expect】

Art Aquarium is a new type of art museum that combines art, design, and entertainment where goldfish are the main attraction.

The Art Aquarium Museum GINZA is located in Ginza Mitsukoshi, a department store in Ginza, the heart of Tokyo.

Various types of goldfish swim gracefully in the specially built fish tanks, which have different themes of Japanese culture. The culture of appreciating goldfish began in Japan in the Edo period, year 1603 through 1867. The Art Aquarium is a modern art space that combines light, sound, and fragrance with traditional Japanese culture and artifacts to recall the appreciation of goldfish. Enjoy seeing adorable and unique goldfish in a fantastic space.

### 【About Goldfish】

Goldfish are ornamental fish. The culture of appreciating Goldfish comes from China, and the ornamental culture becomes popular in Japan during the Edo period. Breeding has produced a variety of forms of goldfish, and many goldfish lovers consider them living works of art. In Japan, children are familiar with goldfish scooping at traditional festivals. Goldfish come in a variety of colors and patterns, including red, albino, and calico, even within the same breed. Approximately 70 species of goldfish swim in the Art Aquarium Museum, 30 of which have been selected as nationally recognized breeds.

### 【Location】

The Ginza Mitsukoshi department is located close to Tokyo Station and the Imperial Palace Plaza, making it easy to arrange your travel plan of Tokyo sightseeing. In addition to shopping, Ginza offers a traditional and nostalgic Japanese atmosphere with its long-established restaurants and retro cafes.
