

SUN achieves ISO/IEC 27001 ISMS certification Strengthening Global Competitiveness with Advanced Security Measures

SUN Co., Ltd (Head office: Minato-ku, Tokyo, President and CEO: Shumpei Nakasone) has been developing its system integration business since its establishment. The Corporate Development Division (Head Office), in charge of contracted and outsourced development for the company, recently achieved certification under the International Information Security Management System (ISMS/ISO 27001) standard.

■Purpose to Obtain ISMS Certification

SUN has been developing its system integration business since its establishment in 2018 and has continued to grow into a company with sales exceeding 1.6 billion yen by 2023. We provide comprehensive solutions for various requests and issues received from companies in Japan, including system proposals, design, development, and environment construction for solutions.

To prove that we maintain high standards for information security and provide safe and secure services to our customers, we recently achieved ISMS certification for our Corporate Development Division at our Tokyo Head Office. ISMS certification is also an international standard that benefits major corporations, local governments, and companies with overseas offices that demand high security.

■Outline of Certification

Certification Standard: JIS Q 27001:2023 (ISO/IEC 27001:2022)

Scope of registration: Provision of services related to planning, development, sales, and maintenance of computer systems in the Corporate Development Division

Registration number: J0703

Date of certification: June 19, 2024

Certification Body: ASR Corporation

■What is ISMS Certification?

ISMS (Information Security Management System) is an internationally integrated third-party conformity assessment system for information security management systems. This certification aims to improve information security in Japan and achieve information security that other countries can trust. It also aims to appropriately manage risk by applying a risk management process.
