

Stuart Cam HD WiFi Camera

Let Stuart, the mischievous Minion keep an eye on your home with the new Stuart Cam HD WiFi camera. The Stuart Cam provides fun and affordable video monitoring to help families tend to what matters most, even when they can't be there. Developed by Tend, maker of award-winning smart home products powered by computer vision technology, the Minion Made Stuart Cam is licensed by Universal Studios.

Stuart Cam (Walmart Exclusive)

This fun, and friendly HD WiFi camera keeps an eye on your home with secure, affordable high-definition video and two-way audio talkback. Its exceptionally simple plug-and-play setup makes it easy for anyone to put Stuart Cam to work in just minutes.

Ever wonder what your furry pet friends do while you're away from home? Stuart Cam delivers a personalized Pet Highlight Reel™, giving pet owners a snapshot of their day, plus the ability to talk and interact with pets over two-way audio using the Tend app on any iOS or Android mobile device. You can even talk like a Minion with Stuart Cam's Minion Talkback feature – just speak into the Tend app and Stuart Cam repeats your message through the camera speaker in a Minion voice. Of course, the same features can be used to check in on

human loved ones, too.

A built-in motion sensor triggers Stuart Cam to automatically begin recording when movement is detected, and users can even receive an instant notification via the Tend app when Stuart Cam is triggered, as well as review captured footage and get a live view of what Stuart Cam sees in real time. Night vision technology ensures Stuart Cam never misses a thing, providing round-the-clock monitoring and peace of mind. Each camera comes with 24 hours of free secure cloud storage on the Tend platform, allowing users to review recorded footage from any mobile device.

FK Solutions has been appointed by Tend as distributor for Stuart Cam in Japan. Stuart Cam will be available in reputable leading retail stores starting [June 2017](#).
