

Stationery brand Kakimori launches translucent pen Frost, and compact nib holder Mini holder

— Available from 1 October at Kakimori and select retailers —

Stationery brand Kakimori, owned by Hotaka Co. Ltd, is set to launch two new products on 1 October 2024 — the Frost pen series, crafted with a translucency that evokes frosted glass, and the Mini holder, a nib holder featuring a rounded design in a bright colour palette.

Since 2021, Kakimori has been developing its original collection in collaboration with designer Makoto Koizumi and manufacturers across Japan. Like their predecessors, these two new writing tools are designed to enhance and elevate your daily life and writing experience.

Frost

Crafted to enrich the joy of everyday writing,
Frost is a labour of love, wrapped in translucence.
Like a work of art or nature, its presence alone inspires,
bringing stillness and pleasure to ordinary moments.
Gentle on the eye, industrial yet charming, a delight to hold and write with
— it's a writing tool that captures the essence of Kakimori.

Pure comfort, simplicity at its best

Casting a careful eye over each and every detail,
we've crafted a balance of modern sophistication and enduring charm.
The cap and body meet with seamless ease, inviting your touch at all times.
Simplicity perfected. A timeless companion on your writing journey.

Semi-opaque exterior

What texture evokes the deepest connection with the writer?
Through endless iterations to capture this moment,
we arrived at the subtle expressions of frosted glass.
Muted hues of ink add the finishing touch,
your favourite colour dancing in your hand.

Mini holder

In an increasingly digital world, what does it mean to write by hand? From the moment the nib touches the ink until it is rinsed clean in water, using a dip pen nurtures your sense of mindfulness, offering a rich and rewarding writing experience. The compact length fits comfortably in the palm, inviting your touch with cheerful colours and tactile materials.

New, yet nostalgic

The petite nib holder is simple in its form yet thoughtfully designed with optimal thickness, length and balance for a seamless writing experience. Available in a range of joyful colours reminiscent of childhood toys or a natural finish that showcases the wood grain, this holder inspires all ages to discover the joy of writing with a dip pen.

Thoughtful quality for a touch that lasts

The body of the holder is crafted from Japanese maple wood and finished with Osmo Colour, a plant-based oil that meets the highest international safety standards. The blend of natural wood and plant-based colour creates a finish that evolves over time with use, enhancing the texture and grain of the maple for enduring writing pleasure.

Frost - Product details

Launch date Tuesday, 1 October 2024
Retail price (JPY) ¥4,950-5,500 (incl. tax)

Specifications

Product name Frost (Fountain pen F, M / Rollerball pen)
Dimension H134 x Ø14mm
