"TCJ KIDS is a Japanese language school for foreign resident families. It is not uncommon for children to face difficulties with their studies or friendships due to limited exposure to the Japanese language. As a specialized Japanese language education institution, we aim to leverage our expertise to foster children's Japanese language skills and confidence, and to create an environment where parents can work with peace of mind. There are no borders in parenting. From here, we will expand a system that supports the right of all children to grow equally."
