

# STILL LIFE

## The Art of Living

During Milan Design Week 2023, Gabriel Tan curates an exhibition held in an authentic and intimate home of a Milanese couple in Porta Venezia, featuring Ariake, DUX, Origin Made, mui, Sera Helsinki and Secto Design, each a master in one's own field but all sharing common values, philosophies and sensibilities.

In an era driven by mass consumption and trends, these brands go against the grain, focusing on combining the best of technology and the handmade to create quality products that give more importance to daily rituals and facilitate an enjoyable way of life. The exhibition features new designs by Anna Pirkola, Claesson Koivisto Rune, Gabriel Tan, Hallgeir Homstvedt, Laura Seppänen, Norm Architects, Peeta Peltola, Philippe Malouin, Rui Alves, Seppo Koho, Sebastian Herkner, Staffan Holm and artworks by Tomek Sadurski. The space will host design conversations moderated by Hanna Nova Beatrice and Tony Chambers.
