

MCBI, Inc. Selected as a 2022 Red Herring Top 100 Global

MCBI, Inc. (President: Yoshihisa Tokumi, Head Office: Tsukuba, Ibaraki, Japan), a company involved in preventive and preemptive medicine, has been awarded the "2022 Red Herring Top 100 Global" award by Red Herring, which recognizes the 100 most innovative, high technology, and innovative venture companies worldwide. The award is given to the 100 most innovative and high-tech venture companies from North America, Europe, and Asia.

Red Herring's "2022 Red Herring Top 100 Global event was held online in the U.S. on Thursday, October 27 and Friday, October 28, 2022, and Kazuhiko Uchida, Chairman of MCBI, was one of the finalists. As a result of his presentation, MCBI was selected as one of the world's top 100 companies based on quantitative and qualitative criteria such as financial performance, technological innovation, management quality, strategy, and market penetration.

There were 5 companies selected in the life science/biotechnology field worldwide, and we were the only company from Japan to receive this award in this field. The award recognized our LC-MS blood testing technology and MCI Screening Test Plus*, which is based on that technology, as well as our efforts to prevent dementia.

Comments by the Red Herring

“Choosing the companies with the strongest potential was by no means a small feat this year” said Alex Vieux, publisher and CEO of Red Herring. “After rigorous contemplation and discussion, we narrowed our list down from hundreds of candidates from across the globe to the Top 100 Winners. We believe MCBI, Inc. embodies the vision, drive and innovation that define a successful entrepreneurial venture. MCBI, Inc. should be proud of its accomplishment as the competition was very strong.”
