

## Financie, Inc. Partners with Ledger Enterprise

～Adoption of the Ledger Enterprise Platform to Financie Token (FNCT) which Coincheck IEO will start application to purchase on February 21～

Financie, Inc. (Headquartered in Shibuya-ku, Tokyo, CEO: Hironao Kunimitsu, hereinafter referred to as "Financie") has entered into a strategic partnership with Ledger (hereinafter referred to as "Ledger"), the global platform for digital assets and web3 developing a variety of products and services to enable individuals and companies to securely manage their digital value. Based on this partnership, Ledger's B2B solution (Ledger Enterprise Platform) has been adopted for the "Financie Token (FNCT)" which will be available for purchase on Coincheck IEO from February 21, 2023. The Ledger Enterprise Platform will also be used to custody Financie's other assets such as Polygon(MATIC) and ETH.

LEDGER ENTERPRISE

FNCT

Ledger is the global platform for digital assets and Web3, and the leading provider of secure hardware wallets that enable individuals and businesses to securely purchase, store, exchange, and manage crypto assets. Currently, more than 20% of the world's crypto assets are secured with Ledger. Financie has entered into a partnership with Ledger and has adopted the Ledger Enterprise Platform for the management and operation of Financie Tokens (FNCT) to structure an enhanced technically secured management system.

Financie is the only web3 platform in Japan that provides consecutive support for the formation and expansion of the token ecosystem, including the blockchain-based token-issuing crowdfunding FiNANCiE, NFT planning and issuance support, and IEO (\*1) support. In the future, by combining Financie Tokens (FNCT) and community tokens (\*2) issued by each community on FiNANCiE, we aim to develop the creator economy that has been closed within the FiNANCiE service into a global ecosystem.

Financie will continue to work with Ledger on various initiatives to expand the creator economy.

※1 IEO stands for "Initial Exchange Offering" and is a mechanism whereby crypto assets issued by companies, projects, etc. are vetted by crypto asset exchanges before being sold. In addition to being able to raise funds, tokens make it easy to form and strengthen communities.

※2 Community tokens are digital items that can be used within FiNANCIe.

## ■ About Financie Token (FNCT)

Financie Token (FNCT) is a crypto asset issued on the Ethereum network. It serves as a platform token that effectively connects community tokens issued and used by FiNANCIe, a blockchain-based token-issuing crowdfunding service provided by Financie, to increase the value of community tokens for a longer term. The service will be used to effectively connect community tokens issued and used at "FiNANCIe". Specific examples of how the Financie Token (FNCT) will be used to include rewarding FiNANCIe users and incentivizing the continued growth of good communities on FiNANCIe. FNCT also has the utility to participate in the governance of the entire FiNANCIe ecosystem, contributing to the realization of "user-centered management".

Please see below for more information on Financie Tokens (FNCT).

■About Financie, Inc.

Financie, Inc. is a company that provides consecutive support for the formation of token-based communities and ecosystems, including the blockchain-based token-issuing crowdfunding service FINANCIE, the NFT business, and the IEO support business. Currently, we have issued, sold, planned, and operated tokens for over 200 sports teams, entertainment projects, and individuals, and are aiming to establish the only Web3 platform in Japan that supports the formation and expansion of token ecosystems in a single integrated manner.
