Play the connecting puzzle game "Hatsune Miku Connecting Puzzle TAMAGOTORI Deluxe" on PS4/PS5, Xbox, and Steam!

In "Hatsune Miku Connecting Puzzle TAMAGOTORI Deluxe," players connect eggs of the same pattern with a line that bends twice or less to clear the eggs. The main visual is by the illustrator Choccy. Additionally, five songs chosen from a song contest are included as BGM tracks.

When all of the eggs are cleared, the stage is completed and the player can reveal one illustration panel. Revealing 25 panels will complete the illustration for the player to enjoy. Clear all stages and unlock illustrations by various popular illustrators!

Additionally, players can use Berries found while solving puzzles to gather birds based on the Piapro Characters. Over 150 types of birds are in the game and are cataloged in the game's gallery. Aim to complete the gallery!

This title includes two paid DLCs that feature collaborations with the projects “SNOW MIKU 2022” and “Kagamine Rin / Len Happy 14th Birthday,” both of which were held in the year “Hatsune Miku Connecting Puzzle TAMAGOTORI” was launched. In addition to unlocking the main visual illustrations from each project, cute eggs and birds with designs unique to these collaborations will also make an appearance. Be sure to check them out!

<Related Information>

▼What are “Piapro Characters”? <https://piapro.net/pages/character>

"Hatsune Miku", "Kagamine Rin", "Kagamine Len", "Megurine Luka", "KAITO", and "MEIKO" are characters for virtual singer software developed by Crypton Future Media, INC.

Through these characters and the software they represent, countless individual creators have published works inspired by each other in a chain of creativity. In reference to this peer production, the characters are collectively known as the "Piapro Characters".

<Company Profile>

Company name: Crypton Future Media, INC.

CEO: Hiroyuki Itoh

Address: Nippon Seimei Sapporo Bldg. 11F, 4-1-1, Kita 3-jo Nishi 4-chome, Chuo-ku, Sapporo, Hokkaido, Japan 060-0003

Established: July 1995

Our Business

We have more than 100 partners around the world, including the U.S. and Europe, and have licensed and sold more than 47 million pieces of sound software to the Japanese market. We started out as a "sound trading company" importing and selling audio materials such as sound effects, etc. Today, we are building and developing a wide range of services and technologies such as DTM software, sound delivery stores, music aggregators, 3D CGI systems, and smartphone game development, under a horizontal company structure. We are also known as the developer of the singing voice synthesis software "Hatsune Miku".
